LEWA is a leading supplier of precision metering pumps, high-performance process diaphragm pumps as well as complete metering systems and metering packages. The company is counted among the competence leaders in fluid metering worldwide.

The technically demanding metering- and process diaphragm pumps manufactured by LEWA are particularly used for critical processes and safety-relevant applications. The company has identified eight business sectors as prime markets: Oil & gas (especially up-stream) / chemical industry & petrochemistry / pharmaceutical & cosmetics industry / food & beverages / plastics / detergents / energy & environment / special applications (e.g. gas odorization).

The LEWA core-expertise also includes many years of experience in international project management, the on-site presence worldwide, the first-class service and the customer support in the after sales field.

Via the regional sales organisations LEWA also sells products of other renowned manufacturers on the European market mostly.

For example:

Air-operated double-diaphragm pumps, rotating displacement pumps (e.g. rotary pumps, gear pumps, screw and eccentric screw pumps) as well as centrifugal pumps of stainless steel and plastics.

With more than 15 affiliated companies and many authorised representatives the user can find LEWA establishments and LEWA cooperation partners in all important countries.
