

## Diaphragm metering pumps

### Performance overview M500 pump head

PTFE diaphragm  
Pressure up to 350 bar  
Flow rate up to 19 m<sup>3</sup>/h  
Temperature -50 °C up to +150 °C  
Viscosity up to 100,000 mPas

# LEWA ecoflow<sup>®</sup>

Integrated  
pressure relief valve

Permanent  
diaphragm monitoring

Suitable for high flow rates

Patented  
diaphragm position control

Insensitive to  
particles in the fluid

Low-wear valves  
for various applications
